HOBBIES

Exploring New Web Technologies
and Frameworks

Gaming

PROFILE SUMMARY

Highly motivated MCA student with a solid foundation in web development and computer science, eager to contribute to innovative projects and gain hands-on experience. Passionate about creating efficient, scalable, and user-friendly applications. Proficient in both frontend and backend technologies, with a strong interest in learning and adopting modern tools and frameworks. Seeking an entry-level Full Stack Developer role to collaborate with a dynamic team, grow professionally, and continually enhance my technical expertise.

PROJECTS

PORTFOLIO WEBSITE

AUG 2024– OCT 2024

I developed a personal portfolio website using HTML, CSS, JavaScript, GitHub, and Netlify to showcase my skills, projects, and experience. The website features a modern, responsive design with smooth animations and interactive elements to create an engaging user experience. I ensured compatibility across all devices by designing a responsive layout. Additionally, I deployed the website on Netlify and integrated it with GitHub for seamless, automatic updates.

SPOTIFY CLONE

MARCH 2024

Developed a modern login form using HTML, CSS, and FontAwesome , featuring a glassmorphic UI with a blurred background effect. Implemented floating labels , smooth animations, and interactive icons to enhance user experience. Designed a responsive layout using Flexbox, ensuring compatibility across all devices. Added hover effects and transitions for improved interactivity and accessibility.

SIGN UP FORM

JUNE 2024

Developed a modern login form using HTML, CSS, and FontAwesome, featuring a glassmorphic UI with a blurred background effect. Implemented floating labels, smooth animations, and interactive icons to enhance user experience. Designed a responsive layout using Flexbox, ensuring compatibility across all devices. Added hover effects and transitions for improved interactivity and accessibility.

WORKSHOP

Completed a Power BI workshop and earned a certificate, gaining hands-on experience in data visualization, report creation, and dashboard development
